GENERAL COMMENTS...

- **DEFENSE:** Overall very outstanding defense and the scary thing for teams is that we can be better. How are we better...
 - We have to move our feet and not foul - we allowed Shoals to get to the line 17 times where they converted 13 times.
 - We have to finish possessions better with rebounds and getting 50/50 balls
 - Against Shoals we only gave up 3 offensive rebounds which is fantastic, but against Rivet we gave them 8 second chance opportunities (luckily they only converted on four of those, but imagine if we had closed those possessions)
- **TRANSITION DEFENSE:** We only gave up two points against Rivet and five against Shoals - great job - this was our best weekend of transition defense all season
- **TRANSITION OFFENSE**
 - We need to do a better job of getting wide and passing ahead - especially off of turnovers
 - Any opportunity that we have to pass ahead we need to do it - especially against Day - we need to run Huppman up and down the floor and force them to use their bench and time-outs - they are only five deep.
- **POST ENTRIES**
 - Our passing and sealing was horrendous at best. We must do a better job of entering the ball to our post guys this weekend
- **OBU**s - we have to be sharper on our cuts and execution on OBUs - we need to get a couple of cheap baskets off of these each game and we didn't do a very good job - especially on Friday night.
- **TWO WINS:** Ultimately, we got two DUBS and won a Sectional - something we were supposed to do - and doing things and accomplishing things as a team that you are supposed to do is not always easy.

- **FOCUS:** When you play well it is easy to waiver your mind and think that things will come easy. THEY DO NOT. We need to have razor sharp focus in practice every day this week and we need to play defense with the same energy and enthusiasm that we did next week. Remember - Evansville Day is our State Championship game.
